

“My Experience in Switzerland’s Bern”

I had never before been outside of Balkan, i had never lived with a unknown family and this was my first time on a plane too.. so naturally i was really excited.

The journey there was nice, i still remember the feeling i had when i first stepped out of the airplane into its field in Switzerland. The smell of a new city, the feeling of seeing new people, of of getting to see a new yet undiscovered land for me.. all of that made me even more excited than i already was. I wanted to know whats next.

We took a bus, then a train to Bern and then we went to our hosts high school. It was a really cool place and there we met our swiss guests from last year and also this years hosts.

Their families were really nice and welcoming people.

Next day we visited the Alps, those Alps i had learned about in my geography class and to me it was one unforgettable experience.

In the following day seeing how the school system is in Switzerland was also really interesting to me too and i enjoyed it way too much.

We also got the chance to visit around Bern and other places, i have to say the thing i loved the most was the old looking buildings that i usually only get to see in movies. I got to try swiss chocolade and swiss cheese, those both were delicious.

One day before leaving, he last final evening where we all got together at Clauses house was one of the best parts, and i also enjoyed teaching our switzerland friends the albanian dance moves, they did catch up pretty fast.

In this trip i made two really great friends that i still keep in touch with, i had the chance to visit so many beautiful places and the moments spent in Switzerland are gonna be hard to forget. I’m just thankful i got the chance to experience it and everything went in a perfect way which sure makes the memories unforgettable.

A.A.
